In an all out plea for support to help end horse slaughter, WFLF Saving America's Horses Foundation issues the following letter of appeal:

Saving America's Horses Foundation (SAHF)

Dear equine enthusiast,

America's horses need your help! We're asking everyone who cares about the welfare of these beautiful creatures to step up, speak up and help BAN the insidious act of horse slaughter. You can help by talking about it and telling your friends about what's going on, and also by [donating](#) to the "Saving America's Horses" Cause. Please help us to bring exposure to this issue. You will make a difference not only for the thousands of horses that will die today, but also for the hundreds of thousands of horses in the years to come.

[Come Stand With Us!](#) With the cornerstone of our campaign efforts at Wild for Life Foundation (WFLF) centers on the welfare of horses and Saving America's Horses Foundation (SAHF) follows suit with the mission to PROTECT ALL EQUINES FROM SLAUGHTER. Thousands of healthy vibrant American horses lose the benefit of protective humane laws once they enter US auctions and sale barns, where they are sold in vast numbers by the pound for their flesh. These majestic and loyal beings endure barbaric cruelty; oftentimes changing hands repeatedly in the course of an unspeakable journey, eventually crossing federal borders only to face horrific slaughter. A very small number of foreigners profit highly from the sale of horse meat which is served as a delicacy overseas. Though some American breeders have taken honorable steps to help BAN horse slaughter, the majority continues to breed indiscriminately. They justify this surplus of horses based on the desires and whims of the horsemanship industry and while the horrors of slaughter are swept under the rug. All told, it's a complicated slippery slope perpetuated by special interests seeking to get a piece of the bloody pie.

Sadly, there is such an intense need to save these horses from this barbaric treatment that many slaughter bound horses are sometimes rescued just for the purpose of humane lethal injection, but these humane acts of mercy will never end the vicious circle of slaughter. Horse slaughter is NOT humane and cannot be made humane. Until enough people take a stand, the over breeding will continue as driven by the market for horse meat.

If you would like to give back to the horses for the loyalty they have provided to mankind over
